

We advance  
scientific and  
technological  
progress

We foster  
technological  
innovation and  
excellence

We promote  
core values of  
science and  
technology for  
better  
humanity

MATA, WiPIEC etc..

## Montenegrin Association for New Technologies MANT

*Every day we identify and  
develop new opportunities  
for sustainable growth of  
science and technology*

## HISTORY

MANT was founded in January 2012 by enthusiastic professors, researchers and students from Montenegro. That same year, it launches a project MECO and a year later with the help of Lech Jozwiak ECYPS. Today, MANT is a reputable international organization with many members worldwide, implementing a large number of national and international projects. Prof. Radovan Stojanovic is MANT's president from 2012. and Dmitry Tarasov Assembly President.

## ACTIVITIES

- Development and transfers of science and technologies
- Promotion of international scientific and technological cooperation
- Performing education and training in science and technology
- Dissemination of the knowledge by organizing conferences, seminars, presentations, exhibitions...
- Development and prototyping new products and services
- Implementing projects
- Publishing research results and educational material
- Recommend and encourage the national policies for development and promotion of science and technology

## PARTNERS

EU Commission, Government of Montenegro, University of Montenegro, University of Zagreb, University of Belgrade, Technical University of Eindhoven, IEEE, EUROMICRO, EAI, RSREU, Plantaže A.D., Cikom LTD, Elkon, Student organizations...

## ACHIEVEMENTS

- 2012- , Mediterranean Conference on Embedded Computing (MECO), annually
- 2013- , EUROMICRO/IEEE Workshop on Embedded and Cyber-Physical Systems (ECYPS), annually
- 2012-. Special workshops and sessions: EETS'2012, BIOEMIS'2015, BIOICT'2015, MECO-Student Challenge 2015, 2016, BioENG.MED 2016, Summer School SS\_on\_ECYPS'2013
- 2015-, Journal Works in Progress in Embedded Computing Journal (WiPiEC)
- Partner in EU projects from ERASMUS Scheme (MarED, EIRENE, SALAAM)
- Coordinator of national project TeleCare.me
- Establishing the awards: MANT Tech Award (MATA) and MANT student innovation award, annually
- Invited lectures of distinguished scientists
- Supporting talented students and students' organizations
- Participation in creating national research policies
- Internal studies on science and research development and policies
